Continuation Sh et (PTOL-413)

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The Examiner suggested the claim language such as a projecting member 62 in replace of an object as recited in the present invention claims. Such claim subject matter is described in the specification page 43 and shown in Flg. 7 reference 62 would make the claims overcome the rejection under 35 USC 112 second paragraph and the prior art rejections (APA). No agreement was reach because Mr. Yong would requested more time to consult w/ the applicants for an agreement with respect to the claim languages suggested by the Examiner (see attached Office Action).
